C. Participation via the hybrid module

1. the participant must register on the website '<https://auction.pferdezucht-rheinland.de/auctions>'. A participation contract is concluded between the organiser and the

participant, which is also based on these auction conditions and through which the organiser presents and offers the consignor's horses as a representative. There is no right to participate. The Organiser reserves the right to block a user from placing bids and to revoke registration. Each participant can only have one account. Therefore, in particular, re-registration is prohibited in the event that a participant's account has already been blocked. In this case, all registered data will be permanently deleted, unless they are required for an ongoing bidding procedure or the processing of an already completed purchase. In this case, the deletion will only take place when it can be definitively ruled out that the data is still required.

2 When registering, the participant must provide complete and correct personal details. In particular, a valid telephone number, e-mail address, residential address and date of birth must be provided. The participant must also state whether he/she is submitting his/her bids as a consumer within the meaning of § 13 BGB (German Civil Code) or as an entrepreneur within the meaning of § 14 BGB. Incorrect information shall entitle the participant to terminate the participation contract without notice.

3. participants may be natural persons or legal entities. Natural persons may only register for use if they are of legal age and have unlimited legal capacity. Legal entities must name the natural persons authorised to represent them, e.g. managing directors or board members, with their full name, address and type of authorisation to represent them.

4. the password may be changed by the participant, may not be passed on to third parties, must be treated confidentially and must be protected against misuse. The participant is liable to the organiser for all damages resulting from misuse of his/her password if the participant is culpable for the misuse. The liability also includes indemnification from

claims of third parties against the organiser. If the participant becomes aware of the misuse or loss of access data, he/she must inform the organiser immediately by telephone so that access can be blocked.

5 The participant may cancel the participation contract at any time without giving reasons. The Organiser shall then immediately deactivate the access with the corresponding password. Uncompleted auctions in which the participant has placed a bid shall nevertheless be completed in accordance with the conditions.

6. the organiser and third parties commissioned by him may store and process the participant's data in addition to the participant's IP address, whereby the data may only be passed on to the seller and vicarious agents of the organiser.

7 Participants are obliged to inspect the horse they are bidding on themselves or through a vicarious agent and to view the current veterinary status.

D. Information on the state of health

The foals to be auctioned have been clinically examined by veterinarians in accordance with their age. A report has been drawn up on the results of the examination in each case. This can be viewed on the respective auction pages of the foals. The bidder is strongly recommended to view the veterinary examination report and, if necessary, to have it interpreted by a veterinarian of his choice. By placing a bid, the bidder confirms that he has taken note of the reference to the possibility of inspecting the veterinary report. The veterinary report is a description of the health condition of the foal put up for auction, but does not constitute a quality agreement within the meaning of § 434 Abs 1 S. 1 BGB. Neither the organiser nor the seller can make binding statements about the foal's state of health. The vet's report has no legal effect on the parties.

E. Acceptance and transfer of risk

In the case of foals, the risk is transferred to the buyer upon acceptance. The buyer must agree the acceptance or handover date of the foal with the exhibitor no later than six months after the foal's birth. An obligatory acceptance inspection at the expense of the exhibitor is required at the time of handover.

This is carried out by the exhibitor's own vet and is recorded. In addition, a handover protocol must be signed by both the exhibitor (or his authorised representative) and the buyer (or his authorised representative) and then sent to Pferdezentrum Schloss Wickrath GmbH. Earlier acceptance of the foal by the buyer is possible by mutual agreement with the exhibitor. Until acceptance, the exhibitor bears the risk and the costs for maintenance, including veterinary and farrier costs. If the buyer delays acceptance of the foal, the risk of accidental deterioration or loss of the foal shall pass to the buyer at the beginning of the delay, and the buyer shall also bear the costs of maintenance, including veterinary and farrier costs.

F. Right of cancellation

For horses for which the seller is to be classified as an entrepreneur, i.e. horses labelled with a VAT rate of 9 or 19%, a right of withdrawal applies within 14 days without giving reasons in the event that the buyer is a consumer and the sale is concluded exclusively by means of distance communication. The cancellation period is 14 days from the day on which the buyer or a third party named by the buyer, who is not the carrier, has taken possession of the horse. In order to exercise the right of cancellation, the buyer must inform the organiser by means of a clear declaration (e.g. a letter sent by post, fax or e-mail) of his decision to cancel this contract. In order to comply with the cancellation period, it is sufficient for the buyer to send the notification of the exercise of the right of cancellation before the expiry of the cancellation period. If the buyer cancels this contract, the owner/provider must refund all payments received from the buyer immediately and no later than 14 days from the day on which the notification of cancellation of the contract is received.

G. Severability clause

Should any of the auction conditions be invalid in whole or in part, this shall not affect the validity of the remaining conditions. The invalid provision shall be replaced by a valid provision that comes as close as possible to the content of the invalid provision.

H. Priority of the German version

The Auction Terms and Conditions are available in German and English. In the event of inconsistencies, the German version alone shall apply; in the event of interpretations, the German version shall also be used in the first instance for the interpretation of the English version and shall prevail.
